

PARTNERS

Welcome

to the next generation
of insurance broking.

Our aim is to be the best insurance advisory business in the UK, characterised by:

- **People** who stand shoulder to shoulder with you
- **Advice** that makes a difference
- **Outcomes** that shape your future

Partnership is the core element that drives who we are and what we believe... with our clients and with our people.

We're combining the best traditions of broking, which place value in relationships and technical knowledge, with modern thinking and intelligent use of technology to ensure our clients experience a better way.

Welcome to Partners&

Protecting your **business**

You're not just a policy number to us, you're a real person, with a real business.

Our holistic and collaborative approach is very different to what is normally experienced in our industry. We work in partnership with you to fully understand your business so that we can diagnose your risks and provide truly bespoke risk protection advice that is relevant to you.

No two businesses are the same, which is why we focus on protecting risk based on what we learn about your business and what we know is happening in your industry. Only then can we recommend a risk management approach that protects you, your business and your people when you need it most.

Protecting your **people**

At the heart of every business, large or small, lies its people, its most valuable, yet unpredictable, asset. Simply put, people risk refers to the human factors that could impact your business.

We help our clients understand their employees and quantify their people risk. Applying our unique business protection and employee wellbeing, engagement, and benefits strategy, we can help you protect your business and maximise your people's potential.

Protecting your **family,** **home, and assets**

Partners& will help make sense of all your personal insurance – across homes, overseas property, prestige cars, art, wine or jewelry collections, and yachts. With the right advice, you can feel confident your insurance will deliver on its promise.

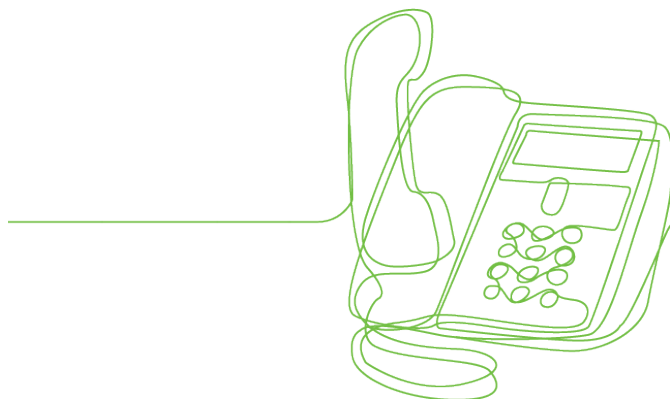

To us, you're a person, not a portfolio. We'll take the time to understand your lifestyle and priorities, and provide truly independent, transparent advice on the most appropriate insurance for you, and how to manage your risk.

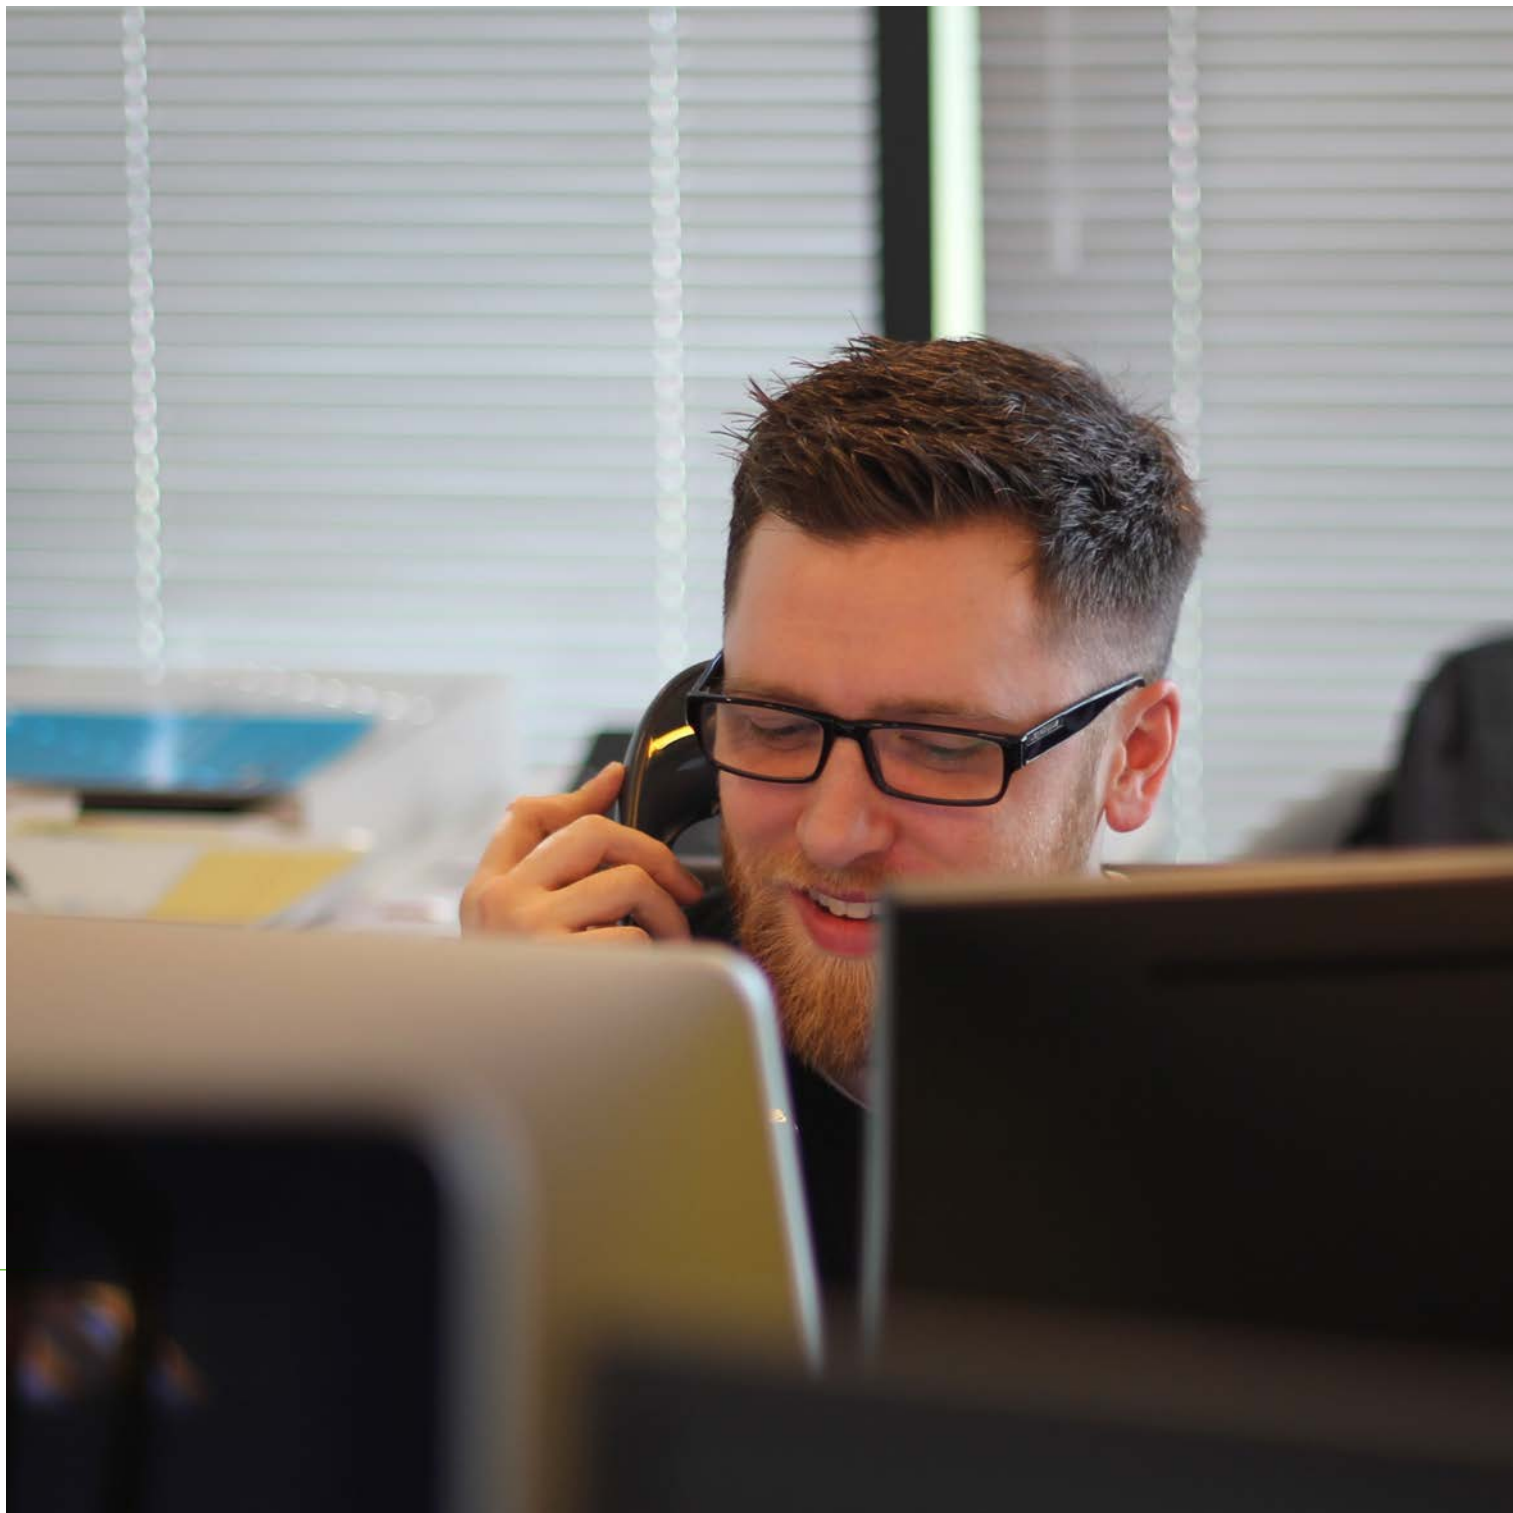

Standing shoulder to shoulder to support your claim

Making a claim can be a stressful process. No matter what type, our dedicated team is here to help you. As a specialist department, we'll help to cut through the noise and support you through the whole process, from first notification of loss to settlement.

Our claims advocates, who are qualified loss adjusters, are quick to respond and ready to represent your best interests fully and fairly in order to secure the appropriate settlement for you.

A seamless approach **to risk management**

Being aware of the risks that your business or your family faces enables you to make informed decisions. We invest the time to work with you to identify any dangerous gaps or expensive duplication in your programme, ensuring you understand the insurance you have and why you have it.

A seamless approach to risk management, insurance and claims ensures you receive the most efficient and effective risk protection solution. The pursuit of this goal is what drives Partners&.

Our **four** core values underpin everything we do

Progressive: We're always looking to make improvements and challenge conventional thinking. We encourage and nurture ambition, growth and a can-do attitude.

Approachable: We strive to make things easy, cutting through the noise and providing advice that's clear and easy to understand.

Collaborative: We understand that the needs of our clients are changing, and we work together to develop bespoke and appropriate programmes that meet their needs.

Enablers: Our insights and expertise provide the reassurance, security and advice that enable our clients to achieve their business objectives and personal ambitions.

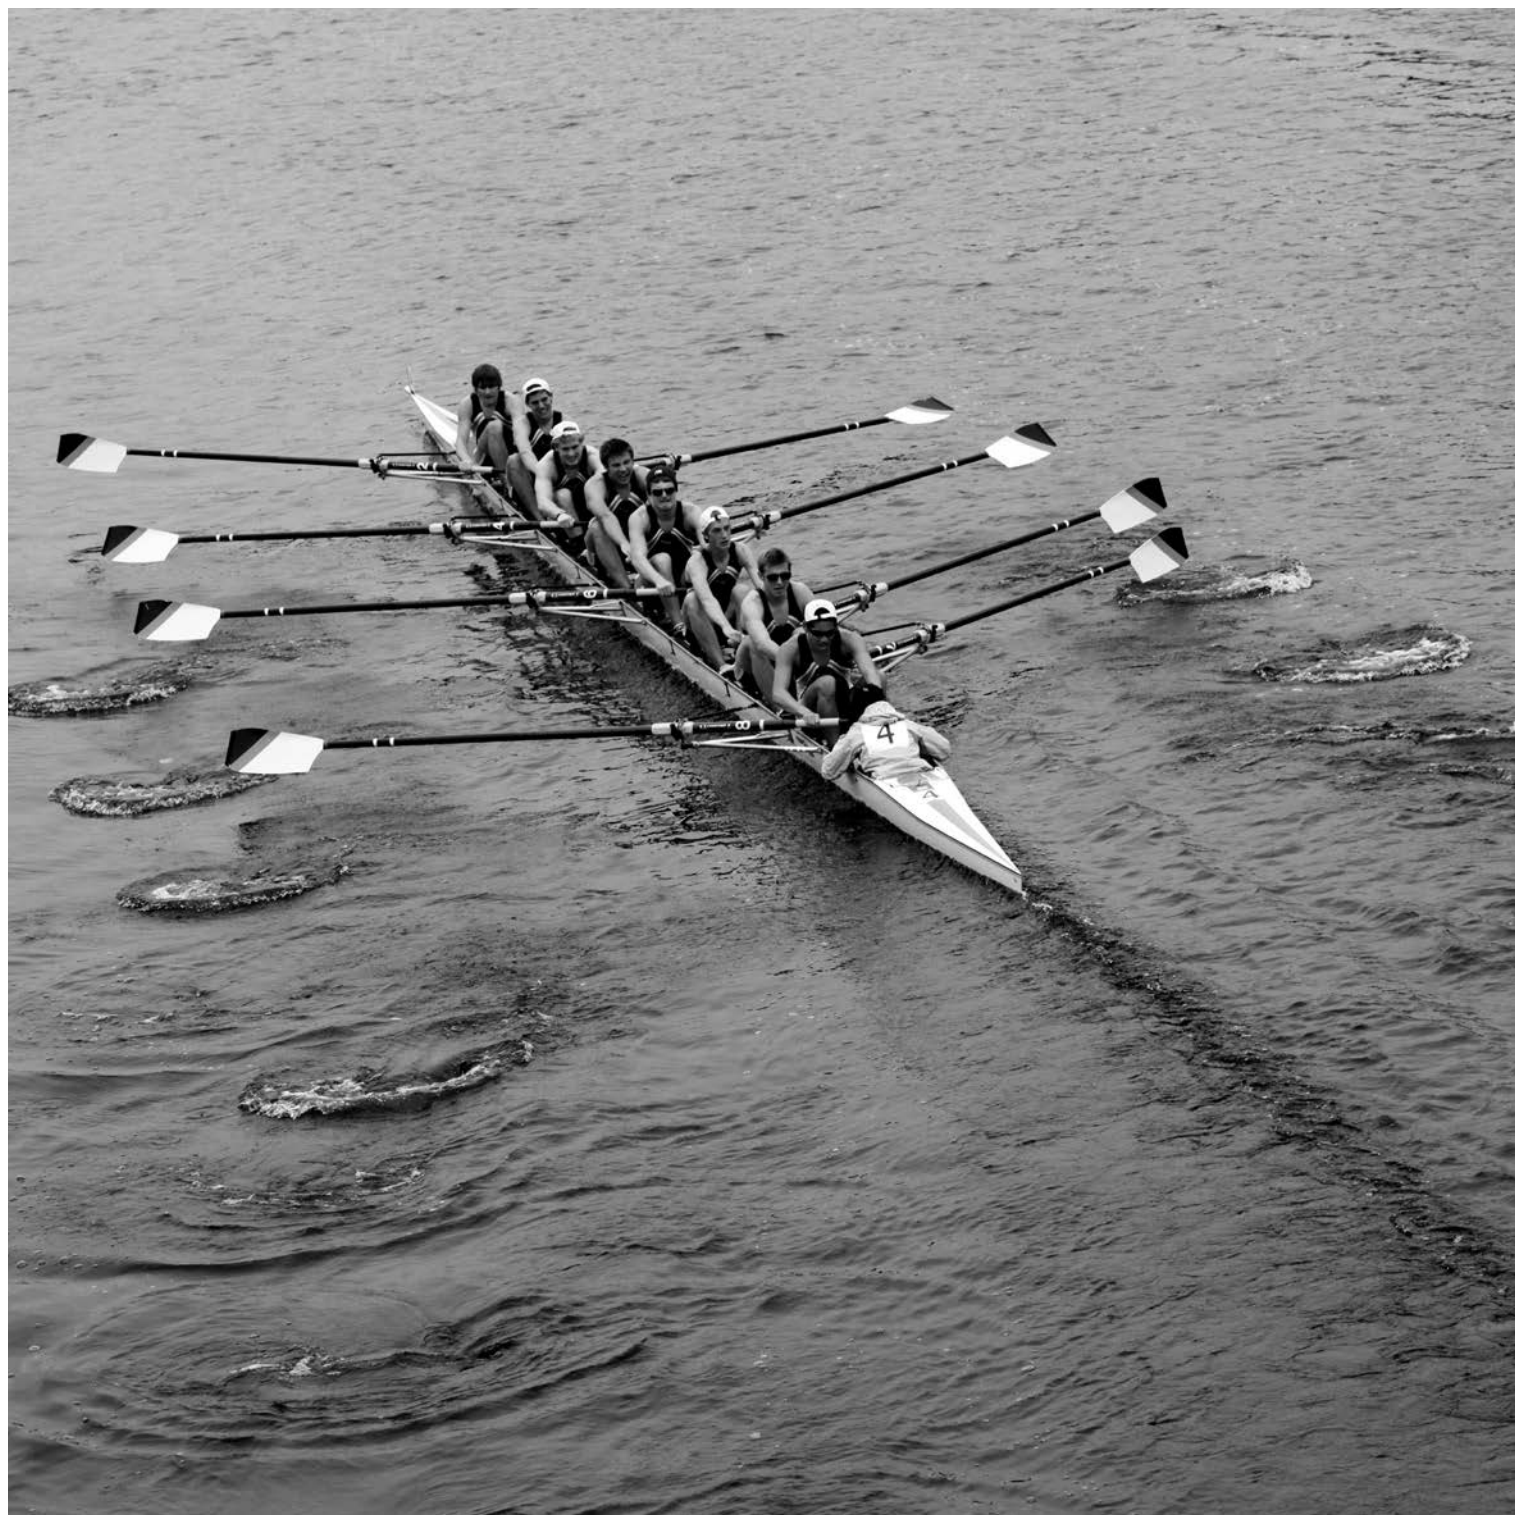

It's no coincidence that these values spell out **PACE**.
It reflects our energy, dynamism and optimism.
